INTERNATIONAL CONFERENCE ON f-ELEMENTS (ICFE-10)

Including rare earths (Y, Sc, lanthanides) and actinides

EPFL, September 3-6, 2018

PLENARY LECTURE

Upconversion Super Dots for Biophotonics and Nanophotonics Applications

Professor **Dayong JIN**, University of Technology Sydney (UTS), Sydney, Australia
Distinguished Professor, Australian Research Council Future Fellow Director

The presentation will showcase efforts in translating both high-brightness lanthanide probes and time-resolved photonic sensing techniques to integrated biomedical devices, towards solving the ‘needle in the haystack’ problem in rapid diagnostics and super resolution imaging applications. A joint effort across a broad spectrum of disciplines via interdisciplinary, interdisciplinary and industry collaborations will have a major impact leading to new quantitative biotechnology and cell biology methods [1-4].
